

SHORT COURSE IN INTERNATIONAL VALUE-ADDED TAX AND TRADE

South Africa has a destination-based value-added tax (VAT) system. The VAT rules dealing with the international movement of goods or services are closely linked to the rules governing customs and excise, exchange control, as well as general commercial rules governing international trade. This online, interactive, short course covers the relevant rules governing international trade from a customs and VAT perspective and explores other regulatory frameworks in a practical manner.

COURSE DELIVERY

This short course is delivered by The Tax Faculty through the virtual campus and webinar platforms.

COURSE PROGRAMME

The knowledge and practical skills across the following topics are covered:

- International movement of goods and services.
- Direct exports of goods.
